CJIS TECHNICAL NOTICE

LAW ENFORCEMENT MOBILE APPLICATION XML INTERFACE TO CJIS/NCIC/RMV UPDATE

NOVEMBER 4, 2008

In support of CJIS modernization efforts, it is necessary to implement several critical programming modifications to the CJIS Mobile Application XML Interface(s). Departments and agencies operating mobile application interfaces to CJIS will be impacted. Vendors must make programming adjustments to their applications to ensure all data requested from CJIS is returned and displayed as expected.

Notice has been sent by CJIS to all approved vendors, and the CJIS technical staff remains in contact with vendor representatives to support their testing and deployment of the programming updates. A testing environment is operational to support the vendors.

The rollout of the CJIS programming modifications is scheduled for:

DEADLINE: DECEMBER 10, 2008

All mobile data programming adjustments must be completed and deployed by your mobile data vendor by the above date. If these programming adjustments are not deployed by this date, there is risk that your mobile application interface to CJIS will not function properly.

You are strongly encouraged to maintain communications with your mobile application interface service provider to ensure this deadline is met, and that CJIS mobile service is not interrupted at your agency.

Should you have any questions and/or concerns, please contact Tracy Varano by phone at 617.660.4731 or by email at tracy.varano@state.ma.us
